PROJECTS

- **Endpoint Automation & Software Deployment** – Built PowerShell-based automation for endpoint maintenance, software development, driver installation, cache cleanup, and deployment logging through the NinjaOne RMM platform to streamline Help Desk workflows.
- **IT Support Workflow & Reporting Improvements** – Focused on improvement of ITIL-based service management workflows, including request lifecycle design, SLA tracking, survey processes, notification logic, and metric dashboard visibility.
- **Internal IT Knowledge Base Development** – Designed centralized wiki to improve documentation, troubleshooting consistency, and cross-team knowledge transfer.

WORK EXPERIENCE

Directions Credit Union | Toledo, Ohio – IT Applications Specialist

FEBRUARY 2023 – PRESENT

- Resolved technological issues in a financial environment on a first-call resolution basis in a speedy manner, while maintaining polite conduct with both fellow employees and members. Maintained a heavy focus on learning, both in and outside of work, to grow and maintain a useful skill set for my position and those I may be able to grow into, including SQL, Jaspersoft, Corelation Keystone, Microsoft 365's suite of products, and more. Advanced into an application support role, acting as a liaison between the Credit Union and technologically focused vendors.

Glassline Corporation | Perrysburg, Ohio – IT Specialist

DECEMBER 2022 – FEBRUARY 2023

- Resolved technological issues in a manufacturing environment on a range of devices and operating systems, with a heavy focus on Windows Server and Linux distributions such as Mint, CentOS, and Rocky, while also helping to maintain an Active Directory and several SQL databases.

Perrysburg Schools | Perrysburg, Ohio – Computer Repair Specialist

JULY 2022 – SEPTEMBER 2022

- Resolved technological issues in an educational setting on a variety of technologies, such as Macs, Chromebooks, and casting devices for students and teachers on a prioritization basis, ensuring 99.9% uptime in all buildings assigned.

Buckeye Broadband | Toledo, Ohio – Brainiac Technical Support Specialist

JULY 2017 – JULY 2022

- Resolved customers' cable and technical issues on a first call resolution basis, while providing exceptional customer service and ensuring full customer satisfaction. Moved forward into a more demanding position involving face-to-face interactions with customers and their equipment, as well as spearheading several large-scale projects in the company.

AWARDS/HONORS
